BOARD OF ARBITRATION

Ready For Suggestions From Each Party to the Anthracite Dispute.

IMPORTANT MEET AT WASHINGTON

President Mitchell and Representatives of the Coal Operators on the Ground—Nonunion Men Attacked—Developments.

Washington, Oct. 27.—All is in readiness for the meeting this afternoon of the anthracite coal strike commission. All the members of the commission are in the city and most of the operators or their representatives are here. The wishes of both parties to the controversy will be considered as to the method of procedure in securing testimony. Plans for holding the public sessions, places of meeting and various other details necessary to be settled before the actual work of taking testimony can be begun will be decided. It is expected that very little evidence will be heard in Washington, as it is not the desire of the commission to compel the attendance of witnesses here when the evidence they have to give can be secured at greater convenience to them at or near their places of residence. The commission also will determine whether it will give hearings to persons not having a direct interest in the issues at stake between the miners and operators, but who believe they can give evidence of a practical character that will assist the commission in its work.

Among the mine operators or their representatives here include President George F. Baer of the Reading, E. B. Thomas of the Erie, John B. Kerr, representing Thomas Fowler of the Ontario and Western; David Wilcox of the Delaware and Hudson and Alfred Walter, representing the Lehigh Valley. They spent the time in the lobby of the hotel chatting, but refrained from discussing for publication their plans. The operators will hear the ideas the commission has to make for undertaking the work in hand, and if necessary will suggest such changes as will best secure the results desired. President Mitchell of the United Mine Workers also arrived, but he declined to be interviewed.

Attacked by Unionists.

Scranton, Pa., Oct. 27.—Half a dozen nonunionists employed at the Oxford colliery of the People's Coal company were given a sound drubbing and chased half a mile through a gangway by a crowd of union employees of the Delaware, Lackawanna and Western company's Bellevue colliery, which adjoins. The mines open one into the other in a number of places, and at one place the employees of both make use of the same gangway or main road. The union men waylaid the nonunionists at a "crosscut," and after pummeling them chased them, hurling sprags and coal at them, until the fugitives reached the mule barn in the Oxford workings, where they sought refuge in the feedhouse. The unionists here gave up the chase.

President Mitchell Watched.

Wilkesbarre, Pa., Oct. 27.—President Mitchell was in conference with the district presidents, Nicholls, Duffy and Fahy, for several hours. He outlined his case as he will present it to the board of arbitration in behalf of the miners, and the same received the approval of the presidents. President Mitchell was presented with a gold badge and gold watch by the Polish, Lithuanian and Slavish members of the United Mine Workers. The badge bears the monogram "J. M." in diamonds, just underneath the bar containing the pin by which it is fastened to the coat lapel. The presentation took place at President Mitchell's headquarters, and a large crowd listened to the speeches of presentation and acceptance.

Carroll D. Wright a Member.

Washington, Oct. 27.—President Roosevelt has announced that he has designated Commissioner of Labor Wright as an additional member of the coal arbitration commission. Colonel Wright will continue to sit as recorder of the commission. The announcement was accompanied by the correspondence upon the subject.

Local Strikes Feared.

Shamokin, Pa., Oct. 27.—One hundred deputies, who were on guard at the collieries in this region during the strike, were sent home under orders to be ready to return at any time when notified, as it is feared there will be local strikes if all nonunion men do not resign their positions.

St. Petersburg, Oct. 27.—Reports received from Siberia say that the wheat harvest there is very poor.

ILLITERACY AMONG CHILDREN.

Surprising Difference In Favor of Offspring of Foreign-Born Population.

Washington, Oct. 27.—The census office has issued a statement giving a compilation of figures regarding illiteracy among children of immigrants and children of natives. The statement says: "Confining the comparison to children between the ages of 10 and 14 years, in the United States as a whole 95.6 per cent of the native white children of native parents and 89.1 per cent of the native white children of foreign-born parents are able to read and write. This surprising difference in favor of the children of the foreign-born population is due largely to the fact that the children of the foreign-born immigrants live mainly in the northern and western states, where the public school system has already reached a high degree of efficiency, while great numbers of native white children of native parents live in the southern states, and in that region about 10 per cent of such children are illiterate."

Expect Good Results.

Washington, Oct. 27.—A dispatch from Panama was received by the Colombian legation here announcing that the cruiser Bogota was then entering the harbor. The Bogota is the vessel which, according to rumors at Managua, Nicaragua, was engaged in battle with the insurgent gunboat Padiilla. The officials at the legation are congratulating themselves on the safe arrival of the Bogota, as they confidently believe she will exert an important influence in ending the revolutionary movement in that department. She was equipped with only four 6-pounders on her trip down from San Francisco, most of her armament having been consigned to Colon, with the intention of transporting it over land, to be placed on the cruiser when she arrived at Panama.

Mad Plunge of a Car.

East Liverpool, O., Oct. 27.—While descending a steep hill in the central part of the city a streetcar of the East Liverpool and Rock Springs line became unmanageable, the breaks refusing to work on account of leaves on the track, and despite the motorman's efforts to stop it it dashed wildly down the hill, left the rails and ran nearly a square over the paving bricks, finally stopping only a short distance from the river. John Wallace, a pottery worker, leaped from the car, fell on his side and was seriously hurt. Motorman C. W. Rauch escaped by jumping. There were eight passengers on the car and a panic prevailed among them.

Deed of Robbers.

Carbondale, Ills., Oct. 27.—Frank M. Flagg, ticket agent of the Illinois Central railroad at Texas Junction, on the Cape Girardeau branch, is missing, and the contents of the money drawer are also gone. It is supposed that robbers entered the office, killed the agent, took the money and put the body in the Big Muddy river. Trainmen say they saw some men prowling around the building before Flagg disappeared. Officials of the road, however, are inclined to discredit the murder theory. The amount of money could not have been large.

Doctor Chapman's Future.

New York, Oct. 27.—The Rev. J. Wilbur Chapman resigned the pastorate of the Fourth Presbyterian church of this city. The resignation is due to Dr. Chapman's acceptance of a request made by the general assembly's committee on evangelistic work, and the doctor will devote his entire time to the holding of conferences, the conducting of meetings and the general direction of the work of the committee. He will continue to reside in this city and will supply the pulpit of the Fourth Presbyterian church until his successor is chosen.

Irish Envoys Pleased.

Boston, Oct. 27.—John Dillon, M. P., and Michael Davitt, the Irish envoys, have gone to New York after their New England visit and both have expressed themselves as much gratified at the result of the great convention of the United Irish League of America in Faneuil hall the past week. Mr. Dillon, Mr. Davitt, John E. Redmond, M. P., and Edward Blake will address meetings in Philadelphia, and on Wednesday night they will speak in Newark. Then Messrs. Dillon and Davitt go westward.

Row at a Dance.

Sharpsburg, Pa., Oct. 27.—As the result of a row at a dance held at the house of M. Sando, an Italian, Antonio Stein lies dead at Pittsburg morgue and the police are searching for Antonio Rich, an Italian from Pittsburg, who is said to have committed the murder. Stein was killed almost instantly by a number of kicks in the stomach, and it is said by those present that Rich was his assailant. At a late hour Rich had not been captured.

St. Petersburg, Oct. 27.—Reports received from Siberia say that the wheat harvest there is very poor.

GOES TO SOUTH AFRICA

Colonial Secretary Chamberlain to Examine Present Problems on the Spot.

WILL HOLD MANY CONFERENCES

Last Official Ceremony In Connection With King Edward's Coronation. French Aeronauts Active. Other Foreign News.

London, Oct. 27.—It is officially announced that Colonial Secretary Chamberlain has decided personally to visit South Africa and examine on the spot the problems presented by the termination of the war and the settlement of affairs in the new colonies. King Edward has given his approval of this plan, which, it is said, has also the full approval of Premier Balfour and the cabinet. Mr. Chamberlain proposes to start for South Africa toward the end of November and to return the early part of March. His visit will embrace the Cape, Natal, Orange River colony and the Transvaal. The colonial secretary hopes to have an opportunity to confer while in South Africa with representatives of all the different interests concerned and to consider their views in his future policy. It is said that Lord Milner has been consulted with regard to Mr. Chamberlain's trip and that he cordially welcomes the idea.

Fighting in Colombia.

Kingston, Jamaica, Oct. 27.—The German steamer Hercynia arrived here from Colon, Colombia. Her officers report that considerable fighting is going on in the interior of that country, the revolutionists taking advantage of the withdrawal of government troops for service on the isthmus. At Savanilla the governmental soldiers are dying at an alarming rate from fever and privations. While the Hercynia was moored at Savanilla there were on the pier the bodies of several soldiers who had died there and the remains had not been removed. Disease is rife on that side of the coast. The ship's officers had to check their own cargo at Savanilla and do other work themselves, to perform which Colombians are generally employed, it being impossible to get local help. The situation on the isthmus remains the same.

Aeronauts Meet.

Paris, Oct. 27.—A number of French aeronauts held a meeting here for the purpose of devising an united plan under which to compete for the St. Louis exposition aeronautic prize of \$100,000. Emile Marceau, the inventor of the flying machine "Le Papillon," was the principal promoter of the meeting. M. Deutsch, M. Santos-Dumont and other leaders in aeronautics were invited, but did not attend. M. Marceau exhibited a huge model of "Le Papillon" with outstretched silken wings, measuring 30 feet across. He urged that as France was ahead in aeronautics there should be a united effort here to secure the St. Louis prize. He proposed the raising of a fund with which to build French airships, and said that in case the prize was won half of it would be divided among those assisting the movement.

Coronation Job Finished.

London, Oct. 27.—The last ceremonies connected with the inauguration of the reign of King Edward VII occurred Sunday when the king, accompanied by Queen Alexandra, the Prince of Wales and almost all the members of the royal family, drove to St. Paul's cathedral and offered up thanks for the recovery of his health, which had enabled him to be crowned. The weather was rainy and small crowds marked the royal progress through the metropolis. At Temple Bar the lord mayor of London and the corporation, in bedraggled robes, met the king and escorted him to the cathedral. In the nave of St. Paul's were gathered several thousand persons, including Premier Balfour, leading members of the nobility, almost all the members of the cabinet and the foreign ambassadors.

Lost an Eye.

London, Oct. 27.—Almeric Hugh Paget, who married Miss Pauline Whitney of New York, has been accidentally shot by a friend while shooting in the country. After the accident Mr. Paget was hurriedly sent to London, where it was found necessary to take out one of his eyes. It is believed that the sight of the other eye will not be affected.

Wilkesbarre, Pa., Oct. 27.—President John Mitchell of the United Mine Workers left here for Washington to attend the meeting of the anthracite coal strike commission.

FAILED TO MATERIALIZE.

Yerkes and Castner Didn't Prove Much of a Drawing Card at Greenup.

GREENUP, KY., Oct. 24.—The Hon. John W. Yerkes and the Hon. W. H. Castner spoke here this afternoon. A large platform had been erected in the court yard, but as the crowd failed to materialize they went into the court house, where there was room for all present and a great many more.

Mr. Yerkes said the American people had the shortest memories of any people on earth; that they had forgotten the panic of 1893, and he himself had forgotten 1873. He started out to ridicule Mr. Kehoe's record in Congress and called Mr. Paynter a partisan Judge. He defended the Philippine policy of the administration. He did not deny the evils of trusts, but shifted the entire responsibility of their existence on the State Governments. He said the country was prosperous because the people had sense enough to vote the Republican ticket. His speech fell flat and was of little force.

Mr. Castner surprised those who had never heard him. His speech lacked all the elements of eloquence and enthusiasm. He told what he tried to do in the Legislature and gave his reasons for not accomplishing anything. The big day was a failure and a disappointment to the Republicans.

FLIMFLAM ARTIST

Works a Federal Judge in Court as a Part of the Evidence for the Defense.

[Enquirer.]

Federal Judge Cochran was flim flammed in the court room Friday by J. H. Gardner, alias Chandler, alias Smith, who is on trial for having turned the same trick on the clerk of the Winchester (Ky.) postoffice. The charge was that he secured a money order for \$90, and only turned over \$50 to the clerk. Friday, during the trial of his case, and at the instance of his attorney, McD. Shaw, Gardner showed to the Judge and jury how he had duped the clerk in Winchster. County Clerk Fennell counted out \$90 in bills of various denominations. He turned it over to Gardner, who counted out \$90 in Judge Cochran's lap. "Now count it, Judge," he said. The Judge then went through the money and found that there was but \$89. Gardner then took up the money and found, upon counting it, that there was \$1 missing. He produced another dollar and handed the roll to the Judge to count. Judge Cochran found that there was but \$80 in the roll. No one in the court room could account for the manner in which Gardner extracted the \$10 from the roll, for he held it in plain view all the time.

SPREAD TO MINDANAO.

Cholera Gaining a Strong Foothold There as Elsewhere in the Islands.

HUNDRED THOUSAND CASES SO FAR

President Roosevelt's Order Expected Immediately to Relieve the Inter-Insular Freight Situation—Agricultural Conditions.

Manilla, Oct. 27.—It is believed here that President Roosevelt's order permitting foreign vessels to engage in coastwise trade through the Philippine Islands will relieve immediately the inter-insular freight situation, as well as improve the supply and lessen the cost of rice, in which article a famine is threatened. The civil commission intends to act at once on the president's order, hoping thereby to avert suffering among the poorer Filipinos. It is expected that a number of British, German, Japanese and Chinese vessels will engage in the inter-island trade. Existing freight rates from Manilla to some ports in the archipelago exceed the rates from San Francisco to Manilla.

Agriculture in the islands, already impaired on account of the war, rinderpest and the cholera, has been further injured by locusts. These insects have appeared in many places and are working serious injury to the crops. The advent of locusts, together with the fall in price of silver, renders the business and industrial prospect in the Philippines gloomy.

The cholera is gaining a strong foothold on the island of Mindanao. It is expected to spread there, as it has elsewhere in the islands. The disease continues to be bad in the province of Illoilo, island of Panay, but it is light elsewhere. It has disappeared from Manilla. The cases reported up to date exceed 100,000.

Expedition Against Sultan.

Manilla, Oct. 27.—General Sumner has completed his inspection of the proposed roadway from Iligan to Lake Lanao, Mindanao. He will return to Zamboanga within a week and will then go to Camp Vickers to organize and start the expedition against the sultan of Bacolod. There is a slight possibility that the sultan will not resist the American forces, but he continues to strengthen his forts.

THREE KINGS WILL MEET.

Emperor William and King of Portugal to Visit Britain's Shores.

London, Oct. 27.—Emperor William will arrive in England Nov. 6, and by that time it is expected King Carlos of Portugal also will be a guest of King Edward. There is every reason to believe that the meeting of the three monarchs will result in important international understandings, especially as regards South Africa and more particularly Delagoa Bay, which is so vitally important to Great Britain as an outlet for her newly acquired colonies.

The Portuguese government appears willing to transfer some portions of its South African territory to British rule. Germany, however, is understood to be strenuously opposed to British trade securing such an advantage—at any rate, unless Portugal is willing to placate Germany by granting her some similar concession; and it is believed that before the Emperor and King Carlos leave England a bargain will be arranged.

Appeal to Union Veterans.

Washington, Oct. 27.—General Robert St. George Dyrenforth, commander-in-chief of the Union Veterans' Union, has issued an appeal to Union veterans of the civil war to organize into a brotherhood for mutual protection. He says that eligibility to membership in the order is now extended to every honorably discharged Union veteran of good record. "By taking an active interest in the affairs of the present," says General Dyrenforth, "he will not only command recognition as an American citizen, but draw attention to the importance of according to him reward for his incomparably great services to our beloved country."

Assault May Be Murder.

Bloomington, Ind., Oct. 27.—Miss Ida Weimer is at the point of death because of an assault by an unknown man as she was crossing the college campus late at night. When half way through the campus, she was struck down by a club. She remembers nothing more of the attack until an hour later when she entered a house a quarter of a mile distant, barely able to tell her name. Her head was crushed and her feet were wet from wading a creek. Two tramps were arrested, but there is no evidence against them. The entire police force

PAYNTER and Kehoe have made faithful officials and it ought to be a pleasure for Democrats to see that they are re-elected.

EVERY true Democrat can afford to give at least a part of a day for his principles and party. Set apart Tuesday, Nov. 4th, as the day for that purpose.

EVERY Democrat in the district owes it to his party to vote for Paynter and Kehoe Tuesday, November 4th, and see that the full party vote is polled.

NO ONE will ever regret casting his vote for James N. Kehoe. He is liberal in his views and accords to every citizen all the privileges he himself desires to enjoy.

MR. DEARING doubtless grew tired of waiting for office at the hands of Democracy and dumped himself into the camp of the Republicans, thinking they might reward him for his perfidy.

THERE is not a county in the Ninth Congressional district but that has profited by the labors of Congressman Kehoe and the good people of the district should see to it that he is re-elected.

It is reported the Republicans will have money to burn at the election Nov. 4th. The trusts are footing the bill, of course. They want Castner elected, because they know he will do their bidding.

THE Kansas City Star (Ind.) says: "The monopolies fostered and entrenched by the Republican party have waxed so fat and strong that they have perfect confidence in their ability to defy the power which created them."

HON. JAMES N. KEHOE is a moral, industrious, broad-minded citizen, deserving of the suffrage not only of the Democratic party, but of every citizen of the district, and he should be returned to Congress by an increased majority.

THE people of Maysville and Mason County were delighted to honor James N. Kehoe last June at the district convention when he was nominated for reelection. Now let them vote November 4th and increase his majority over what it was two years ago.

WHY doesn't the editor of the Public Ledger publish the opinion of Attorney General Pratt in regard to filling the vacancies in the Board of Education? The Ledger is such a great newspaper it seems strange the editor has overlooked or ignored this important item.

PAYNTER AND KEHOE.

Conceded That Both Will Cut the Republican Majority in Greenup—Kehoe Popular With Old Soldiers.

GREENUP, KY., Oct. 24th.—Both Judge T. H. Paynter and the Hon. J. N. Kehoe are in this county this week looking after their prospects for reelection. This is Judge Paynter's home, and he is personally known to more people than any other man in the county, and will receive a large vote from the opposition. He is a good organizer, and as a campaigner he cannot be beaten. He was born in Lewis County, and notwithstanding the big Republican majority down there he has a remarkable following from the opposition ranks.

Mr. Kehoe is a popular candidate. Two years ago he was comparatively unknown in Greenup County. But to-day everybody knows and likes Jim Kehoe. He is decidedly popular with the veterans of the Civil war, for they say he has helped them more in his two years' term than his predecessor did in six years. Mr. Kehoe is the most active and faithful Congressman the Ninth district has had since the days of Paynter. It is generally conceded that both candidates will cut in on the big Republican majority in Greenup County and will be elected handsomely.

Miss Fannie M. Marshall was quite severely hurt by a fall she had Sunday at Washington, her face being badly cut.

DOES YOUR DAUGHTER NEED A JACKET?

Tell her to come in and ask for a Wooltex Contest Card. It costs nothing to try and she may win a handsome \$15 Coat. Many little ladies between 8 and 15 years are writing rhymes on "Mary and Her Little Lamb." The best verse wins.

LITTLE GIRL THIS IS FOR YOU—Ask your teacher how sheep's wool is made into cloth. Sometimes it is mixed with inferior materials and colored with ruinous dyes. Wooltex garments are absolutely pure wool, unadulterated and dyed by the most improved process. They wear and don't pull out of shape. Write a 4 or 6-line verse about Mary and Her Lamb, also using the word Wooltex and Thanksgiving eve the following gentlemen will decide upon the rhyme that wins—Mr. Thos A. Davis, Judge Thos. R. Phister, Mr. Allan D. Cole.

WHY WOOLTEX COATS ARE BEST—No danger of elbows showing through, trimmings dangling, threadbare spots, or shabby button holes, because of the superiority of materials and construction. Here you'll find Wooltex garments in every fetching style to please you and your daughter, and equally important, at prices that concur with any purse.

D. HUNT & SON

KENTUCKY RAILROADS.

Their Earnings the Past Year Show an Increase—Mileage Slowly Growing.

FRANKFORT, Ky., Oct. 23.—Murray R. Hubbard, Secretary of the Railroad Commission, to-day completed the compilation of the annual reports of the railroad corporations to this body, and it will meet here early in November, possibly about the 10th, for the purpose of assessing the tangible property of the various companies for taxation.

The reports of the various companies and the compilation makes an interesting showing, demonstrating that, as a whole, the business during the past year has been a profitable one, with increased earnings over the previous year. The total gross earnings in Kentucky of the companies for the year is \$26,532,120, as against \$23,795,414 last year, an increase of \$2,736,706. The total net earnings for the year is \$8,521,037, as against \$7,878,468 for 1901, an increase of \$642,569 over that year.

The reports of the five big lines operating in and through Kentucky—the Louisville and Nashville, the Illinois Central, the Cincinnati, New Orleans and Texas Pacific, the Southern and the Chesapeake and Ohio—all show a good condition, all showing increased gross earnings over last year, and all except the last-named showing increased net earnings. The decrease in the net earnings of the Chesapeake and Ohio Company is due to the extensive improvements on the Ohio and Big Sandy branch.

The gross and net receipts of these companies and a comparison with similar receipts for 1901 is given:

The Louisville and Nashville Railroad Company—Gross receipts, 1901, \$11,269,120; for 1902, \$12,547,853. Net receipts, 1901, \$4,043,030; for 1902, \$4,303,994.

Chesapeake and Ohio Railroad Company—Gross receipts for 1901, \$2,825,611; for 1902, \$2,882,275. Net receipts for 1901, \$1,046,876; for 1902, \$991,278.

BECKHAM ELIGIBLE.

Prominent Constitutional Lawyers Give Their Opinion on This Point.

FRANKFORT, Ky., Oct. 24.—That Governor Beckham is eligible under the State Constitution to succeed himself as the Chief Executive of Kentucky is held by former Chief Justice W. S. Pryor and J. H. Hazelrigg, former Congressmen William T. Ellis and Col. Lewis McQuown, all leading constitutional lawyers in an opinion furnished the Governor to-day.

The question was raised by former Congressman John K. Hendrick, of Paducah, who recently announced his candidacy for the Democratic nomination for the office of Chief Executive.

Governor Beckham has not as yet made a formal announcement of his candidacy for re-election, but will do so within the next few weeks.

The Kentucky Constitution provides that the Governor shall be ineligible for a succeeding term. A term is four years. Governor Beckham, at the close of the present term, will have served three years and eleven months.

Last Chance to Register.—To-day, tomorrow and Wednesday are special registration days. Voters who were absent from the city, sick or otherwise legally prevented from registering can do so at the Clerk's office. If your name isn't on the book you can't vote in November.

Saturday's Courier-Journal had a picture of Mr. Frank H. Clarke, but it's well the artist told who it was, as it bore very slight resemblance to Mr. Clarke.

F. M. Dunham has been reappointed postmaster at Dover for another term of four years.

Capt. and Mrs. T. E. Moore, of Shawhan, announce the engagement of their daughter, Miss Anna Shawhan, to Mr. Ernest Adams Hornbrook, of Jackson, Ky.

There will be a Democratic speaker at every schoolhouse in Nicholas County this week, while the Hon. Frank Peak, the Hon. H. V. McChesney and Congressman Kehoe will speak in Carlisle. Strong campaign committees have been appointed. Paynter and Kehoe are safe for 500 Democratic majority in Nicholas County.

It is reported that the L. N. is to remove the Train Dispatcher's office from Paris to Livingston, and make that the division terminal. If such a thing should happen, it would be a serious blow to Paris. All the conductors, brakemen, engineers and firemen who now make their homes in Paris would be moved to Livingston, and this would make a difference of about \$15,000 a month to the merchants of Paris, says the Democrat.

THE BEE HIVE

Our System Wins!

High grade merchandise at lowest possible prices has proven a sure winner at this store. The public has stamped APPROVAL across our system of merchandising and we are pleased to announce that our sales are 33½ per cent. larger this season than any season in the history of this house. We bought the heaviest stock this fall that the Bee Hive store has ever held, but we find that even this stock was too small for our increased trade, so we are compelled to make another trip to New York. Mr. Al. Merz left Saturday to replenish and secure any late Novelties that may be out. So keep your eye on the Bee Hive.

Injunction Denied.

In the Circuit Court at Brooksville Saturday, the application of Rev. Father Cusack for an order to enjoin the reading of the Bible in the public schools, was dismissed by Judge Harbeson. The injunction was asked on the ground that the religious exercises at the opening of the school were of a sectarian character.

Charles Dennison and Elizabeth M. Shephard, an Ohio couple, were married here Saturday.

'SQUIRE T. J. PICKETT.

One of the County's Well Known and Honored Citizens Succumbs To an Attack of Typhoid Fever.

'Squire Thomas J. Pickett, whose critical condition was frequently mentioned last week, died Saturday afternoon about 4:45 o'clock at his room at the Central Hotel, of typho malarial fever. For several weeks he had bravely struggled against this dread disease, and for days he had lingered in an extremely critical condition. Throughout his illness he retained his clearness of mind and was conscious almost to the last. Relatives and friends had ministered to his every want, and medical skill had battled with the disease but to no avail.

Thomas J. Pickett was born near Washington, Ky., in September, 1840, at the residence of his father, Major B. O. Pickett. He was named after an uncle, an early Magistrate who was an honored citizen of Mason County for many years. Reared in an ideal home and deriving his earliest conceptions of life from that source, he never ceased to feel the effect of the precepts, the examples, the associations and traditions which were the strongest educational influences of his youth— influences that gave strength and attractiveness, and a strong setting to the solid attainments of later years. Bred to the absorbing pursuits of agriculture, he never lost his love of country life, its varied interests and occupations, its social pleasures, its pastimes and its sports. Every moment that could be snatched from the cares of official and business life in the county town was given to the old home and the old farm from which he had derived so much of the vigor, the inspiration, the activity and the endurance of a ceaselessly busy life.

Though taking an active and useful interest in public affairs, he seemed to be totally devoid of the ordinary ambitions of men; and the pursuits of his life, while exacting the utmost accuracy of knowledge and a careful and systematic attention to detail, were not of a character to develop antagonisms or to bring him into collision with men or events. But had such responsibilities been thrust upon him his courage and capacity would have been ample for the demands upon both.

He had in the highest degree those qualities of sobriety and constancy which are everywhere and always silent and resistless forces in the affairs of men, quite as manifest in small affairs as in great, and invariably characteristic of thinkers and doers of the highest class. His life was absolutely free from posing and pretence. His pride preserved him from the pettiness of social assumption and the vanity of personal display. He was not selfish, nor greedy, nor self-assertive. On the contrary, modest and scrupulous to a fault. As he sowed, so did he reap. His silent labors were crowned with that perfect success which is in exact keeping with an honorable career, and what he gathered manfully in the open struggle he dispensed secretly with an open hand.

If there be a touch of exaggeration in this estimate of the noble citizen who, all too early, has entered into his eternal

'Squire Pickett served his county several years as a Magistrate, and during the last term of President Cleveland was honored with positions in the revenue service, first as a General Deputy and later succeeding the late Robert L. Baldwin as Deputy Collector at this point.

Mr. Pickett leaves three brothers and two sisters—J. C. Pickett, of Tuckahoe, (a twin brother). Mr. D. D. Pickett, Mrs. W. W. Hall and Miss Mary Pickett, all of this county, and Mr. W. S. Pickett, of Cross Timbers, Mo. His wife, who was Mrs. Julia Jenkins, a daughter of the late Robert Perrine, died some years ago. He leaves no children.

The funeral took place at 10:30 o'clock this morning at the Christian Church, Rev. W. W. Hall officiating, assisted by Rev. R. E. Moss and Rev. Dr. Barbour. Interment in the Maysville Cemetery.

The union meeting at the Central Presbyterian Church last evening in the interest of the Y. M. C. A. was attended by a large crowd. Addresses were delivered by Rev. Dr. Evans, Rev. Dr. Barbour, Judge Cochran and Mr. H. C. Curran. A subscription was taken to aid in maintaining the association, and about \$500 was secured. This was a very encouraging offering considering the number present.

Mr. Charles Rhodes killed a large blue crane at his home near Washington this morning that measured five feet, six inches, across the wings, and four feet, eight inches, from tip of bill to the end of the feet. The bird was killed with a Remington shotgun, at ninety yards. It can be seen at Owens' hardware store.

A man who has been at work on a railroad back of Portsmouth is ill at a house on Wall street, north of Second, with what is thought to be small-pox. The disease is prevalent at South Webster, O., among the men who went from this county a month or so ago to work on a railroad. These men were from Maysville, Washington and Mayslick, and some of them are returning. One was arrested at Portsmouth Friday broken out with the disease.

The regular monthly meeting of the Mason County Medical Society will be held at G. A. R. Hall, Wednesday, 29th, at 2 p.m. A full attendance from city and county is requested.

The review of the local burley leaf market for the past week shows a much easier feeling on some grades, and as a result the market was not as satisfactory to shippers as previous week. Offerings decreased one-fourth as compared with last week, and rejections averaged nearly 28 per cent. This unfavorable showing is largely due to the fact that no sales were held Friday, and also to the fact that buyers and sellers are much at sea as to the exact general condition and quality of the new crop which is about to come on the market. This condition naturally resulted in a slight slump in the market and tended to unsettle prices and values. All grades, however, were not affected alike, for, while there was a slight shading in prices on medium bright and good red leaf, red tips, common bright trashies, and, in fact, all the inferior types showed well-sustained strength under a continued good manufacturing demand.

Good color was extremely scarce throughout the week, and there were very scant offerings of fancy leaf and choice selections were entirely absent, the absence of these types thus accounting for an apparent low average.

The market is expected to become steadier and resume its normal tone as soon as the quality of the new crop becomes generally known, for there is no just reason to believe that the big buyers are trying to "bear" the market.

A few packages of the new crop made their appearance on the "breaks" during the week, but they graded rather poor in quality and were in moist order, and there was nothing in them on which to base an estimate of the quality of the crop.

LIVE STOCK MARKET.

A Review of Conditions at Cincinnati the Past Week—As a Rule Trade Was Dull.

[Cincinnati Live Stock Review.]

The receipts of cattle the past week show a total of 8,088 head, against 5,502 head the previous week, and 5,788 head two weeks ago.

The market has been quiet and easy, and quotations were lower all around. Sellers were unable to clean up, and there has been holdovers each day. The quality was only fair, and no strictly prime heavy beefeves were on sale. At the close-to-day trade was very dull and prices not much more than nominal.

The receipts of hogs during the week were 16,859 head, which is 1,958 head more than a week ago, and 269 head less than on corresponding week last year. From March 1st to date the receipts reach a total of 418,560 head, and shipments 143,687 head, leaving a net supply of 269,973 head, against 327,550 head the corresponding period a year ago.

Early in the week the market was easy, making big declines. Then there was some reaction on Tuesday, but to-day prices were lower again and the market weak at quotations.

Receipts of sheep and lambs were 3,743 head more than last week, amounting to 7,960 head. Sheep ruled quiet and steady, but lambs were easy and lower.
